

Alpha Aerosols

Standard Operating Procedure (SOP) Planning and Procurement Department

SOP #: AER-PL-003
DATE: June 2026
REVISION: 00

Title: Procurement Requisition to Supply Chain Manager

Effective Date: June 2026

Purpose: To communicate material needs to the Supply Chain Manager so Purchase Orders are placed on time.

Scope: All procurement requisitions raised by the Planning department for the Aerosol Plant.

Responsibility: Planning and Procurement Lead (raises requisition); Supply Chain Manager (places PO)

Procedure:

1. Prepare the Requisition

- For each material: note the code, description, quantity, and unit of measure.
- Add the required delivery date at the plant and the priority level (P1 to P4).
- Reference the Sales Order or production plan the material is being ordered for.

2. Submit Based on Urgency

- P1 and P2 materials: submit to the Supply Chain Manager on the same day.
- P3 and P4 materials: submit as part of the weekly planning cycle.

3. Confirm Acknowledgement

- Supply Chain Manager must confirm the Purchase Order plan within one working day.

4. Track Progress

- Track all requisitions against confirmed POs via ERP and daily inventory report.
- Follow up on any requisition where a PO has not been placed by the expected date.

5. Escalate if Not Actioned

- For P1: if not actioned within 4 hours, escalate to the Production Manager.
- For P2: if not actioned by end of working day, escalate to the Production Manager.
